EXPERIENCE

AI & ML Intern <i>Nisum Consulting</i>	Jul 2025
- Worked on ML projects and collaborated with cross-functional teams to deliver business-aligned AI solutions. - Contributed to AI/ML development workflows and supported implementation of machine learning solutions.	
Full Stack Intern <i>Technical Hub</i>	May – Jun 2025
Improved website page performance by 30% through frontend optimization and performance improvements.	

PROJECTS

Nagara Netra — AI-Powered Smart City Civic Grievance Platform <i>React Native, Node.js, MongoDB, MuRIL NLP, EfficientNetB0, BLIP</i>	
- Built a multimodal civic grievance platform using image, text, voice, and GPS inputs with MuRIL NLP. - Integrated EfficientNetB0 for issue detection and BLIP for image captioning in a React Native.	
VitaNova AI — AI-Powered Nutrition Assistant <i>React Native, Expo, OpenRouter (Gemini Vision), Custom RAG Pipeline</i>	
- Built a cross-platform mobile app that scans food using vision AI and provides instant multilingual nutrition breakdowns. - Designed an offline-first RAG pipeline with multilingual voice interaction and a local nutrition database for offline functionality.	
Multi-Tenant SaaS Platform <i>React, Node.js, MongoDB</i>	
- Architected a scalable SaaS application with role-based access control and multi-tenant data isolation. - Developed the platform using React, Node.js, and MongoDB with a focus on scalable application architecture.	
Oryx — Skill Exchange Platform <i>React, Node.js, MongoDB</i>	
- Developed a skill-sharing web platform with secure authentication and an interactive, responsive user interface. - Implemented the application using React, Node.js, and MongoDB for full-stack web functionality.
