

# AMJURI YASWANTH

Full Stack Web Developer | Computer Science Engineering Student  
yaswanthamjuri@gmail.com | +91 8688209206 | GitHub | LinkedIn

## Career Objective

Full Stack Web Developer with hands-on experience developing responsive web applications using React, JavaScript, Node.js, Express.js, REST APIs, MySQL, and MongoDB. Passionate about building scalable, user-friendly applications and contributing to real-world software projects while continuously learning modern web technologies.

## Education

|                                                                                                                           |                                      |
|---------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| <b>Aditya College of Engineering and Technology</b><br><i>B.Tech. in Computer Science and Engineering – CGPA: 8.56/10</i> | Andhra Pradesh, India<br>2023 – 2027 |
| <b>Sasi Junior College</b><br><i>Intermediate (12th) – 90%</i>                                                            | Andhra Pradesh, India<br>2021 – 2023 |

## Technical Skills

**Frontend:** React.js, Next.js, JavaScript, HTML5, CSS3, Bootstrap  
**Backend:** Node.js, Express.js, FastAPI, REST APIs  
**Databases:** MySQL, MongoDB, PostgreSQL, SQL  
**Programming Languages:** Java, JavaScript, Python  
**Tools:** Git, GitHub, VS Code, Linux, Expo  
**AI/ML:** RAG Pipelines, NLP, OpenRouter, Roboflow

## Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Technical Hub</b><br><i>Full Stack Intern</i> <ul style="list-style-type: none"><li>Developed responsive, production-ready web applications using modern frontend and backend technologies.</li><li>Improved website performance by approximately 30% through frontend optimization and efficient implementation.</li><li>Collaborated with the development team to implement full-stack features following industry best practices.</li></ul> | May 2025 – Jun 2025 |

## Projects

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Nagara Netra</b>   <i>Next.js, React, TypeScript, FastAPI, PostgreSQL</i> <ul style="list-style-type: none"><li>Developed an AI-powered smart city grievance routing platform with role-based Citizen, Officer, and Admin dashboards.</li><li>Integrated computer vision, multilingual NLP, voice transcription, and LLM-based complaint analysis for automated routing and priority assignment.</li><li>Implemented real-time WebSocket notifications, analytics, 3D WebGL visualizations, and secure JWT-based authentication.</li></ul> |
| <b>VitaNova AI</b>   <i>React Native, Expo, OpenRouter</i> <ul style="list-style-type: none"><li>Developed an AI-powered nutrition assistant with multilingual support using React Native and Expo.</li><li>Implemented an offline-first architecture with a custom Retrieval-Augmented Generation (RAG) pipeline.</li><li>Integrated AI capabilities to provide personalized nutrition assistance and intelligent responses.</li></ul>                                                                                                       |
| <b>Oryx – Skill Exchange Platform</b>   <i>React, Node.js, MongoDB</i> <ul style="list-style-type: none"><li>Built a responsive skill-sharing platform enabling users to connect, exchange skills, and manage profiles.</li><li>Implemented secure authentication, interactive user interfaces, and MongoDB-based data management.</li><li>Designed a user-friendly platform focused on connecting individuals through skill exchange.</li></ul>                                                                                              |
| <b>Multi-Tenant SaaS Platform</b>   <i>React, Node.js, MongoDB</i> <ul style="list-style-type: none"><li>Developed a scalable multi-tenant SaaS platform with role-based access control and secure authentication.</li><li>Implemented tenant-level data isolation to securely separate organization-specific information.</li><li>Designed a modular backend architecture supporting scalable application development and data management.</li></ul>                                                                                         |

## Certifications

Oracle Certified Foundations Associate (2025) | MongoDB Certified Associate Developer | GitHub Foundations

## Achievements

- Improved website performance by approximately 30% during internship through frontend optimization.
- Represented the district and state levels in badminton competitions

## Leadership & Activities

NSS Coordinator | Lions Club Member | Community Volunteer
